**Tour 2025
- Italy -**

Tech Rider 2025

Acid Mothers Temple with Taigen

- 1) Make the sound as loud as possible, and we will not turn down. We will play at least 110db. Makoto's guitar (stage left) is dynamic and sometimes loudest part of band, louder than drums. Vocals and drums should be mixed lower, this is not a pop band.
- 2) Drums will be mounted almost in the middle of the stage and everything will be set up next to it. Nani (drums) will need a good drum rug
- 3) Hiroshi (keyboard) needs a bar stool to sit on.
- 4) Jyonson (guitar right) will bring his own mic and cable, you will plug into his effects pedal. He needs a mic stand and mic clip
- 5) Julien (bass April 23 to May 4) will need DI for a special effect
- 6) Taigen (bass May 5 to end) will need monitor and microphone and mic stand
- 7) We don't really want to share anything, very long tour and no time to fix things. We also will not move backline much. Thanks!
- 8) Thank you. We don't travel with a sound technician. Let's rock!
